

**T3 Telecom Software, Inc.**

Powering enterprise communications through integrated telephony solutions.

## T3main SIP

Software-only Solution for  
Advanced Telephony Applications

**T3main** is an innovative and comprehensive telephony solution harnessing the best technologies in the telecommunications industry. A unique single-platform approach provides flexible voice and data capabilities to support a variety of location sizes, regional requirements and technology infrastructures.

T3main fits effortlessly into a VoIP, traditional TDM PBX, or hybrid strategy, enabling you to efficiently leverage previous PBX investments.

T3main is SIP-enabled (Session Initiation Protocol) to offer the same functionality, flexibility and scalability of the traditional T3main TDM Platform in a software-only application. T3main SIP, an open standard based on IP standard technology in VoIP technology, allows organizations to manage a simpler and more complete integration with a wide variety of PBXs.

T3main SIP helps lower costs by reducing the number of required servers and hardware, reducing bandwidth requirements, and creating a more stable environment for geographically distributed organizations.

### T3main SIP supports all functionality in

#### T3main including:
